

The Village of Burk's Falls

Press Release

January 26, 2015

To: All Media

The Village of Burk's Falls and the Township of Armour have agreed to explore the idea of amalgamation. This has been discussed between the two Councils on an informal basis over the past few years. It was recently decided to move forward and start gathering information on the process. Once this is completed, both Councils will be able to make educated decisions based on the facts.

The Councils of Burk's Falls and Armour are looking for ways to promote economic growth and create jobs within the two jurisdictions. Achieving this will provide the added benefit of revitalizing the Downtown core. There are three parts to the puzzle: having available parcels of Commercial/Industrial land, Municipal water and Municipal sewer. Separately, neither has all three components. Together, we do.

There are very few locations north of Huntsville that can offer this combination of options to businesses looking to establish themselves in this part of Ontario. By working together, Burk's Falls and Armour hope to provide the opportunities necessary to foster economic development and growth.
