

THE CORPORATION OF THE TOWNSHIP OF ARMOUR

BY-LAW # 12-2006

**BEING A BY-LAW TO REGULATE THE CONSERVATION
OF WOODLANDS WITHIN THE TOWNSHIP OF ARMOUR**

WHEREAS Sections 135 through 138 of the Municipal Act, S. O. 2001, c. 25, as amended, provides that a *local* municipality may prohibit or regulate the destruction or injuring of trees and sets out a fine structure for any person who contravenes a by-law passed under Section 135 or an order made under subsection 137 (3).

AND WHEREAS the Council of the Corporation of the Township of Armour deems that it is desirable to enact such a by-law for the purposes of promoting conservation, good forestry practices and sustain healthy woodlands within the Township.

NOW THEREFORE the Council of the Corporation of the Township of Armour enact as follows:

Short title: The Woodlands Conservation By-law,

1. DEFINITIONS

For the purposes of this By-law:

- (a) "Building Permit" means a Building Permit issued under the Building Code Act, 1992, S. O. 1992, c. 23, as amended;
- (b) "By-law Enforcement Officer" or "Officer" means the individual appointed by Council for the administration and enforcement of this By-law;
- (c) "Circumference" means the circumference measurement of the stem of a tree made outside the bark of the tree;
- (d) "Council" means the Council of the Corporation of the Township of Armour;
- (e) "Destroy" means to remove, cut down or injure a tree to such an extent that it is deemed necessary to remove or cut down the tree;
- (f) "Diameter" means the diameter measurement of the stem of a tree measured outside the bark of the tree;
- (g) "Good Forestry Practices" means the proper implementation of harvest, renewal and maintenance activities known to be appropriate for the forest and environmental conditions under which they are being applied and that minimize detriments to forest values including significant ecosystems, important fish and wildlife habitat, soil and water quality and quantity, forest productivity and health and the aesthetic and recreational opportunities of the landscape; and

"Good Forestry Practices" permits the cutting and removal of trees that are hazardous, severely damaged, diseased and insect infested trees which must be removed in order to prevent the contamination of infestation of other trees, or which no longer contribute to the achievement of forest values;

- (h) “Injure” means any act that will harm a tree including failure to protect in accordance with the requirements of this By-law;
- (i) “Intermittent Stream” means a stream which flows for fewer than nine consecutive months per year under average annual precipitation conditions, and which has defiled banks;
- (j) “Landowner” means a person having any right, title, interest or equity in land;
- (k) “Own Use” means a use that **does not include** a sale, exchange or other disposition of trees destroyed or injured;
- (l) “Point of Measurement” means that point on the tree trunk measured above the highest point on the tree where the ground meets the stump. For coppice growth the point of measurement shall be at the point on the tree trunk where the tree stems separate that such a point of separation is less than 1.27 metres (50 inches) from where the ground meets the stump.
- (m) “Registered Professional Forester” as defined in the Professional Foresters Act, 2000, S. O. 2000, c.18;
- (n) “Silviculture” means the theory and practice of controlling forest establishment, composition, growth and quality of forests to achieve objectives of management;
- (o) “Sensitive Natural Area” means an environmentally significant area, natural area or ravine as defined and designated in the Armour Township Official Plan and Zoning By-law and shall include;
 - (i) significant portions of habitat of vulnerable, threatened and endangered species;
 - (ii) significant woodlands, ravines, valleys, rivers and streams;
 - (iii) significant wildlife habitat and natural corridors;
 - (iv) any portion of a woodlot located within 30.5 metres (100 feet) of the water’s edge of a wetland, a lake, a river, a stream, or an intermittent stream;
- (p) “Tree” means any species of woody perennial plant, including its root system, which has reached or can reach a height of at least 4.5 metre (14.5 feet) at physiological maturity;
- (q) “Wetland” means lands on which water tolerant plants are dominant and that are Seasonally or permanently flooded by shallow water or where the water table is within 0.25 metres of the surface;
- r) “Woodlands” means land at least **one hectare** and more in area with at least:
 - (i) 400 trees per acre (988 trees per hectare) of any size,
 - (ii) 300 trees per acre (750 trees per hectare) measuring over two (2) inches, (5.0 centimetres), in diameter at DBH,
 - (iii) 200 trees per acre, (494 trees per hectare) measuring over five (5) inches (12.7 centimetres) in diameter at DBH, or
 - (iv) 100 trees per acre, (247 trees per hectare) measuring over eight (8) inches (20.3 centimetres) in diameter at DBH,

but does not include a cultivated fruit or nut orchard or a plantation established for the purpose of producing Christmas Trees;
