

TRI R LANDFILL & RECYCLING CENTRE

705-382-2682
141 Chetwynd Road

HOURS OF OPERATION Summer Winter

Monday	10-5	11-5
Tuesday	10-5	11-5
Wednesday CLOSED		
Thursday	10-5	11-5
Friday	10-5	11-5
Saturday	10-5	11-5
Sunday	10-5	11-5

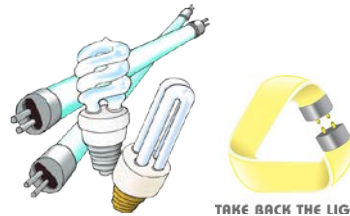

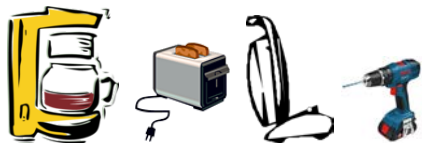

Summer Hours Effective May 1st to August 31st

LANDFILL PASS REQUIRED FOR ACCESS

ONTARIO ELECTRONICS STEWARDSHIP

Even though your old electronics are no longer of use to you, they contain valuable components and material that can be safely recycled to manufacture new products. Bring us anything with an electrical cord and we will recycle it.... **NO FEE APPLIED**

BULBS & TUBES, CFL'S, HALOGENS, FLOODS

Fluorescent lamps have several hazards if broken. Breaking the glass can cause shrapnel injuries, along with the release of mercury and other hazardous compounds. The biggest threat from a broken lamp is from the phosphor-coated glass. If cut with fluorescent lamp glass, any phosphor that gets into the wound is likely to prevent blood clotting and will interfere with healing. Such injuries should be treated seriously and immediate medical attention should be obtained for people or pets that are cut. Medical personnel should be informed that the injuries were caused by a broken fluorescent lamp, and that mercury was present. For more information go to <http://www.ec.gc.ca/mercure-mercury>.

DISPOSABLE & RECHARGEABLE BATTERY

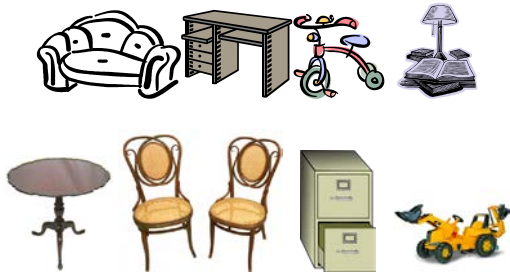

1,839 Pounds of batteries were recycled in 2014

Don't forget battery packs for power tools are also recyclable. Raw Materials Company uses a mechanical process that separates all of the components of a primary battery so they can be properly recycled. The recovered materials are used to make new products saving our earth's finite resources and the energy needed to mine them from ore.

REVISED TIPPING FEES

Item	Fee
Construction & demolition materials - truck/trailer	\$0.40/ft ³
Components containing Freon refrigerator, freezer, air conditioners	\$25.00
Pre-drained and tagged components	\$5.00

REUSE AREA

Clothing, coats, bedding, and towels will not be accepted at the TRI R Reuse. Consider donating toys, clothes, and other items to local reuse and second hand stores. Fees will apply to items dropped off for the TRI R Reuse center.

Bedding, blankets and towels are almost always accepted at the local animal shelters and boarding kennels.

**Reduce. Reuse.
Recycle.**

BOAT WRAP & FILM PLASTIC

**BAG YOUR
BAGS**

HELP CONTROL WIND BLOWN DEBRIS IN THE COMMUNITY

Each year we spend hours cleaning up along the road, and the forested area of the site. Help us to control wind-blown debris by recycling shopping bags, packaging wrap, frozen veggie bags, chip bags, sandwich bags, rinsed milk pouches, bread bags; just to name a few. Clean plastic bags and plastic wrap can be placed in one bag and tied in a knot and placed in the container at the centre.

BLUE BOX TONNAGE FOR 2014

NEWSPAPERS, MAGAZINES & BOOKS 56.25 TONNES

METAL CANS & FOIL 15.40 TONNES

CARDBOARD & BOXBOARD 87.92 TONNES

PLASTIC CONTAINERS & LIDS 36.69 TONNES

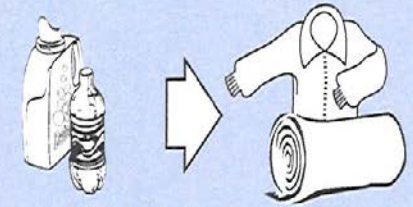

FILM PLASTIC & SHOPPING BAGS 10.45 TONNES

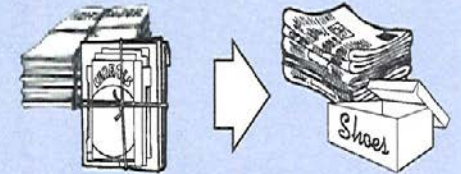

CLEAR & COLOURED GLASS 20.26 TONNES

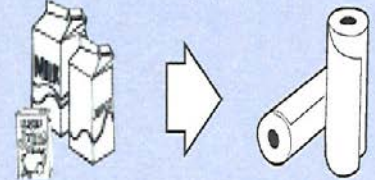

Where it all goes...

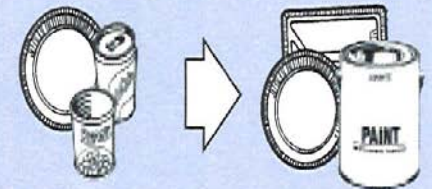

Plastic is recycled into new plastic, carpet and fleece wear.

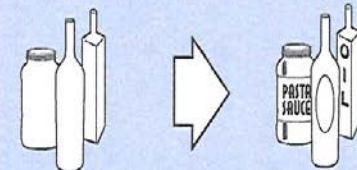

Cardboard, boxboard and paper is made into new paper products.

Milk and juice containers are used to make high quality paper products like napkins, paper towels and stationery.

Metal and aluminum containers are made into new aluminum containers and other metal products.

Glass is used to make new glass products, as well as road base material.
